Signetic Covid-19 Mass Vaccination Solution (MVS)

Our goal is to help vaccinate 200M people.

What we can do for you:

In **three weeks** we can deploy our customized software service that will allow

- Online booking and walk up registration of 100,000's of patients
- Flexible management of appointments, sites, and staff so you can adapt quickly to changing conditions
- Automated insurance and HRSA processing to help you reclaim costs

What is Signetic Mass Vaccination Solution?

Signetic MVS is an innovative solution to solve the ongoing challenges in administering Covid-19 vaccination.

We can set up a fully-digital, end-to-end COVID-19 vaccination solution for your multi-location clinics and hospitals in 3 weeks. Our platform supports Pfizer, Moderna, and is customizable for upcoming vaccine regimens.

Ideal for:

- ✓ Quickly setting up Mass Vaccination Sites that are processing 5k-10k people per week.

We've Already Started

Seattle Visiting Nurses Association

Signetic partnered with Seattle Visiting Nurses Association to deploy a COVID-19 vaccination solution in Washington State. Together we are technical experts and healthcare consultants with on-the-ground experience ready to bring this implementation to other organizations.

Jake Scherf
CEO, SVNA

"We knew we needed to completely redesign our business model to meet our patient's needs for COVID-19 vaccinations. Signetic rose to the challenge and created a complete solution on Power Platform around how we work to keep us lean and help vaccinate more patients than ever."
